

Santa Maria Valley **ECONOMIC IMPACT REPORT**

**October 2025 | Prepared for the Community of Santa
Maria**

Introduction

The Santa Maria Valley Chamber of Commerce is proud to present our Monthly Economic Impact Report for October 2025, highlighting our continued efforts to support business growth, community development, and economic vitality throughout the region. During the month, the Chamber’s Economic Development team assisted two potential new businesses and provided support to five local enterprises through permitting guidance, business discussions, and start-up assistance. These activities reflect our ongoing commitment to fostering a strong, resilient business environment in the Santa Maria Valley.

Throughout October, the Chamber engaged in a wide range of programs, initiatives, and outreach efforts. Membership growth and retention remained strong, while hundreds of community members participated in networking opportunities, committee meetings, and business support activities. The Chamber also continued outreach through the Hispanic Business Group, hosting educational and networking opportunities to support Hispanic-owned businesses.

Tourism efforts remained a key priority, with updated Transient Occupancy Tax (TOT) data, digital engagement results, visitor guide distribution, paid advertising, and participation in regional industry events. Workforce development also progressed through ongoing planning with local partners and hands-on education through teacher tours.

The Chamber remains deeply connected to local government, businesses, residents, and community partners through meetings, events, and dedicated outreach. This report highlights the Chamber’s essential role in driving economic success, supporting local industries, and strengthening the Santa Maria Valley community.

Joining the Santa Maria Chamber of Commerce was a natural decision for CADA. As we continue to expand our services in Santa Maria, we wanted to connect more deeply with the local community and be part of a network that prioritizes collaboration, support, and shared growth. The Chamber has already provided meaningful opportunities for us to engage with local leaders, raise awareness about our mission, and strengthen our presence in Santa Maria. We are grateful to be part of a community that values connection and is invested in the well-being of its residents, something that aligns closely with the work we do every day.

Business & Government Roundtable

Christopher Williams, Police Chief for the City of Santa Maria, update focused on progress in community outreach and positive trends in law enforcement statistics. The department is actively engaging with agricultural communities to build positive relationships and establish the Police Department as an ally, while navigating challenges related to federal government and ICE policies, strictly adhering to State laws that prohibit interaction between local police and ICE. On the enforcement front, the department has recovered over 35 illegal firearms since June, with social media intelligence being a key tool. They also reported a significant 67% year-over-year decrease in shooting incidents and noted improved relationships between the community and detectives. Furthermore, the use of license plate readers has proven valuable in identifying and prosecuting suspects, leading to a reduction in vehicle thefts. Representatives from local elected's also provided legislative updates.

Ambassador Committee

The meeting was led by Ambassador Chair, Paula Fuller of American Self Storage. Cara Martinez, Ambassador Chamber Staff Liaison shared updates on upcoming meetings and events, and coordinated Ambassador assignments for these activities. A report on new members for September was presented, along with updates on recent Ambassador outreach efforts. Additionally, our Ambassador profile was presented by Sandra Sigala of CBS, FOX & ABC.

Tourism

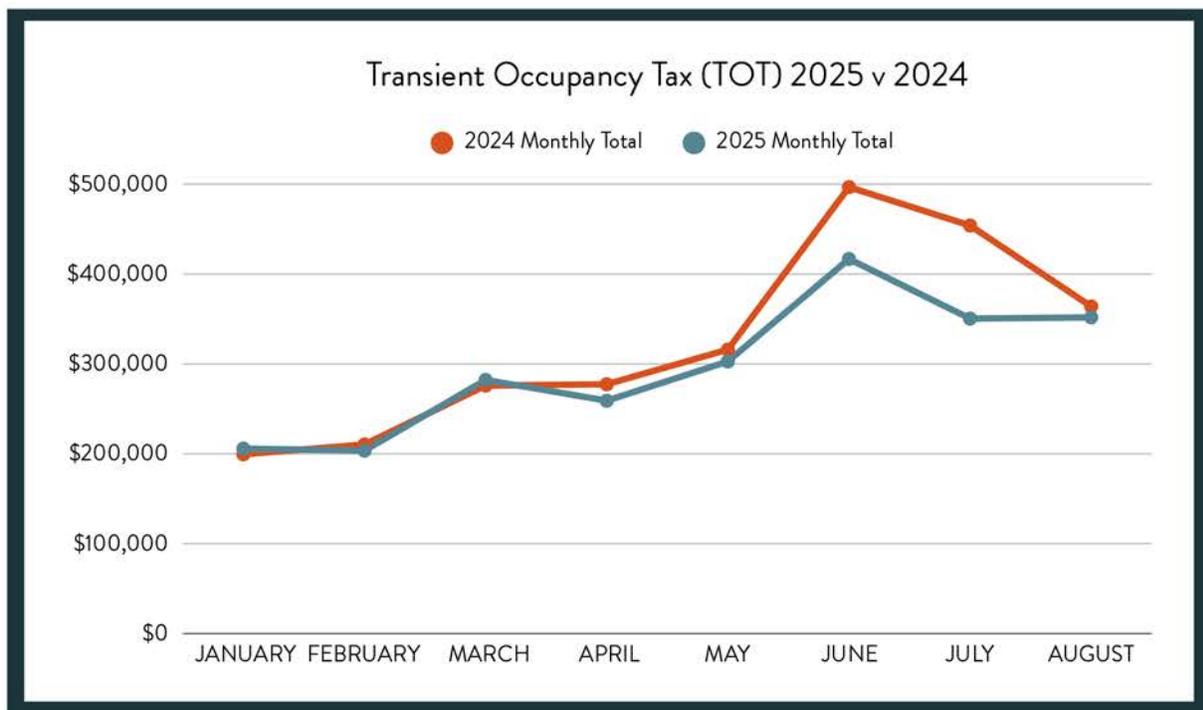

Transient Occupancy Tax Data

Despite the well-documented headwinds facing the tourism sector across the country, driven by consumer economic concerns and the current political climate, our Transient Occupancy Tax (TOT) revenue is demonstrating promising signs of stabilization as we head into the last quarter of the year.

The latest report, covering data through August, shows a monthly year-over-year decrease of 3.35%. This monthly result indicates a strong deceleration of the negative trend when compared to the average monthly year-over-year decline of 6.35% that the area has experienced so far this fiscal year.

While our year-to-date (YTD) revenue for the January-August period remains in deficit, showing an 8.54% decrease compared to the same period in the prior year, the most recent monthly performance highlights our destination's enduring appeal and the resilience of our local tourism market. We remain strategically focused on leveraging this recent momentum to close the gap and secure the strongest possible fiscal finish.

Month	2025 Monthly Totals	2024 Monthly Totals	Monthly Percentage Change
